**MADE IN
EUROPE**

Because we believe in our made in Europe kites and boards quality, construction, and durability, we are passing these benefits onto our customers. As a result, since 2019, all CrazyFly kites and kiteboards, have an industry leading three years warranty. Your kites and boards are fully covered for three years. This warranty goes beyond regular warranties and includes crashing your kite or board in water when learning to progress.

Exclusive to CrazyFly, Triplex is the most advanced ripstop material on the market. Triplex has by far the best strength to weight ratio and with triple coating its durability is unmatched. The coating protects the fabric from UV rays, salt and abrasive objects, such as sand. Triple coating and three ripstop yarns ensure the lowest possible elongation and deterioration of the material till date.

TerTex is two times stronger than our Triplex triple ripstop and forty percent lighter than the Dacron material we use. Used on all struts and wingtips of all 2022 CrazyFly kites, TerTex radically reduces kite weight. Lighter kites have better low end, move faster through the air, are easier to relaunch and turn quicker.
